Sample PDF for pdfplumber

DeepSeek Harness - PDF text extraction test

This is a small sample document that contains several paragraphs of plain text.

It exists so that read_pdf.py can prove that pdfplumber is able to pull text out of a real PDF file.

Line three standing on its own.

The quick brown fox jumps over the lazy dog. 0123456789 !@#$%^&*()

Numbers and symbols: 3.14159, 42, 2024-01-01, hello@example.com

Final paragraph: extraction finished successfully.
